# **Company Profile**

Graham is a global business that designs, manufactures and sells critical equipment for the energy, defense and chemical/petrochemical industries. Energy markets include oil refining, cogeneration, nuclear and alternative power. For the defense industry, the Company's equipment is used in nuclear propulsion power systems for the U.S. Navy. Graham's global brand is built upon its world-renowned engineering expertise in vacuum and heat transfer technology, responsive and flexible service, and unsurpassed quality.

Graham designs and manufactures custom-engineered ejectors, vacuum pumping systems, surface condensers and vacuum systems. The Company is also a leading nuclear code accredited fabrication and specialty machining company. Sold either as components or complete system solutions, the principal markets for the Company's equipment include:

- Refining
- Chemical/Petrochemical
- Power
- Defense and Other Industrial

Graham equipment can also be found in diverse product applications, such as:

- Refrigeration
- Water Heating
- Metal Refining
- Food Processing
- Pharmaceutical
- Pulp and Paper Processing
- Shipbuilding
- **HVAC**
- Desalination
- Alternative

Energy

For nearly 80 years, Graham has built a reputation for top quality, reliable products, and high standards of customer service. Its equipment is installed in facilities from North and South America to Europe, Asia, Africa, and the Middle East.

#### **Graham Vision and Strategy**

Graham's vision is to be a world-class leader in the design and manufacture of engineered-to-order products for the energy markets with a goal to grow organic revenue to exceed \$200 million:

- Leveraging capacity to capture market share
- Expanding predictable base business including nuclear market MRO, U.S. Navy, aftermarket and short-cycle products
- Acquiring engineered-to-order product companies to expand geographically and/or diversify products
- Cultivating new markets, such as gas-to-liquids
- Maintaining margins through engineering and manufacturing operational efficiency improvements
- Maintaining a strong balance sheet through aggressive cash management

### **Investment Considerations**

- Expected long-term global energy demand growth driving opportunities
- Leading market position and worldwide brand recognition
- Sales model based on early engineering involvement
- Expanding addressable market opportunities
- Strong and flexible balance sheet
- Acquisition opportunities
- Results-oriented management team
- Top quartile financial performance
- Solid operating leverage and powerful cash generation

Q2 FY 2017 TTM Revenue: \$83.1 Million

# **Second Quarter Fiscal 2017 Highlights**

- Net sales in the second quarter of fiscal 2017 were \$21.1 million, down 7%, impacted by persistent weak market conditions. Highlighting the importance of Graham's diversification strategy, sales to the power market doubled to \$6.1 million.
- Net income was \$1.3 million or \$0.13 per share; excluding a \$0.05 million, net of tax, nonrecurring restructuring charge, adjusted net income was \$1.4 million, or \$0.14 per share.
- Orders increased 20% to \$24.8 million in second quarter compared with the prior-year period, driven by results of diversification strategy.
- Backlog grew to \$104 million, from \$100 million at end of fiscal 2017 first quarter.
- Expecting fiscal 2017 revenue to be between \$85 million and \$95 million, gross margin between 21% and 23%; impacted by delays and pricing pressure for both major project work and also short cycle projects.
